

Lion King Clip Activity

Vocabulary Review

Biotic Factor:

Abiotic Factor:

Ecological Succession:

Primary Succession:

Secondary Succession:

Elephant Graveyard:

- 1) List 2 abiotic factors that seem to be lacking in the habitat of the hyenas, which would explain the lack of producers in this area.

- 2) What is wrong with the following statement. "Hyenas are on the bottom of the food chain."

- 3) Why is it unlikely to have such a large number of hyenas living in an ecosystem like the Darklands?

In the Jungle:

Tree Leaves → Beetles → Wart Hog → Lion

4) Name all the consumers.

5) Which organism is the secondary consumer?

6) Which organism is the primary producer?

Scar is Ousted:

7) What type of relationship do Scar and Simba have if they are fighting for the same niche?

8) What type of symbiotic relationship are Simon and Pumba demonstrating?

9) After the fire and fight pride rock undergoes succession. Which type of succession is it? Why?

10) Out of the animals and organisms in the final scene, create a food web with a primary producer, primary consumer and secondary consumer below.
