

Unit 1 Cells Test – Learning Target Reflection

A. I can list the three parts of the Cell Theory

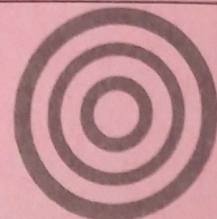

Bullseye means you got EVERYTHING in that section right!

B. I can compare and contrast biotic and abiotic things

C. I can list the five characteristics of living things

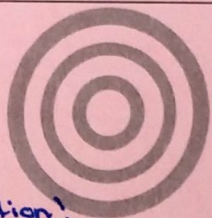

D. I can compare and contrast advantages and disadvantages of single cell and multicellular organisms

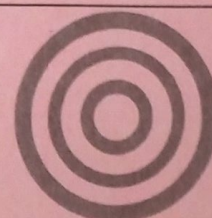

First ring means you are really close and only missed 1 question from that section!

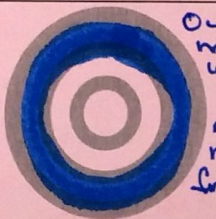

E. I can create and label a model of a plant cell with a nucleus, cell wall, cell membrane, mitochondria, and chloroplast.
F. I can create and label a model of an animal cell with a nucleus, cell membrane, and mitochondria.

G. I can describe the functions of the nucleus, mitochondria, and chloroplast.

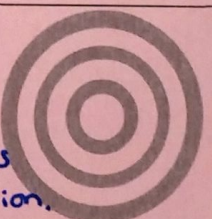

H. I can compare and contrast the function and characteristics of the cell wall and cell membrane.

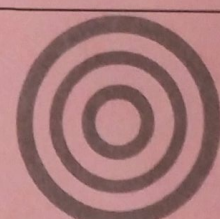

Outer ring means you were way off and missed 2 or more questions from that section.

A. I can identify the organizational levels.

Vocabulary Matching

Overall Test Score: _____ %

Did you get a 70% or higher

Yes, so it is optional for me to retake it

No, so it is NOT optional for me to retake it

What I Can statements do you need to work on?
(you can list the letters from the targets above)
