

## I Can Statements - Unit 9 Population Dynamics

| I Can...  | Page Number |
|---|-------------|
| 1. I can explain how the availability of resources like food, water, shelter, etc. can impact living things.  |             |
| 2. I can explain how organisms interact with each other (symbiosis) including how certain species are vital to the health of their specific ecosystem (keystone species). |             |
| 3. I can explain how changes in the environment and human interaction can affect populations of living things (HIPPO).  |             |
| 4. I can discuss the value of maintaining diversity and saving species that are in danger of going extinct.   |             |
